

Human Identity Summit Part 3

Potent Qualities and Activities of Human Society

The process of indestructible clarity identity is summed up in the empowerment of society with optimal qualities and activities. This takes place through the Four Mainstays of Balanced View:

1. The simple practice of short moments of clarity; this is the key button to press for everyone;
2. The Balanced View media unerringly presses the reset button again and again until all of human society is automatically and continuously reset to clarity potency;
3. The trainers are ultimate friends who completely confirm and evoke our clarity nature;
4. The community is available 24/7 worldwide through a vast communication network comprised of many technologies.

The Four Mainstays elicit the very powerful clarity of human society. This text names aspects of our true identity so that these can be easily recognized.

Humanity's clarity is spacious, lively, precise and very potent. Clarity is a personal and real sense of expanding ourselves and enriching our environment. It is expansion, enrichment, plenty. We expand constantly, opening purposefully for the benefit of all, and relax into

the flow of clarity's beneficial qualities and activities. From the first moment of unending clarity, we recognize its stability, permanence and generosity.

In clarity the principle of prosperity is extraordinary. Living is very rich and plentiful, and we extend ourselves into the world purposefully, personally, directly, in all ways—mental, emotional, sensorial and otherwise. This is the powerful expansiveness of clarity's beneficial intent.

Humanity's mutual clarity includes everything in its expansive environment like the power of vast space contains and pervades countless planets and stars. Clarity is settling and potent, openly inviting everything to come in and rest. Clarity is open-hearted to all, intimate and fierce. Open-hearted clarity is wide open to all aspects, seeing them clearly and distinctly and knowing how to act. Stealth and wrathful, clarity instinctively knows how to benefit all.

Clarity is fantastically precise and aware; it is tremendously interested and inquisitive. Everything is seen in its own distinct way, with its own particular qualities and characteristics.

Humanity's clarity is real openness, a willingness to demonstrate what we have and what we are to everyone. Clarity brings to the world a sense of generosity, a sense of promise. In whatever is experienced, there is lots of promise. There is a constant sense of magnetization and spontaneous hospitality.

Clarity is refreshing and fantastic no matter what it goes through. It feels good in itself, *as it is*.

Humanity's clarity effortlessly demonstrates qualities and activities that are of benefit to all. It is complete fulfillment of activity without feeling stressed or pushed. It is natural fulfillment in relation to everyday life. Clarity's view offers complete effectiveness and efficiency to each point of view—the efficient view shining from within each point of view. The efficiency of clarity fulfills each here-and-now.

In clarity, all resentment and confusion are outshone and the qualities of energy, fulfilling action, and openness remain. Clarity's wonderful activity touches everything in its path. Clarity sees the possibilities inherent in situations and automatically takes the appropriate course. Clarity spontaneously fulfills its nature to be of benefit of all.

Humanity's clarity is the foundation. It is the environment that makes possible completely beneficial, prosperous and generous qualities and activities. Its strength is unsurpassable.

Humanity's clarity is an environment of all-pervasive spaciousness and completely open potential. It can accommodate anything in its force, just as the vast ocean indivisibly contains all drops of water.

Clarity is the assurance that we have everything we need, and there is nothing more to get. Clarity in itself is a whole course of action for human society, which enriches it with benefit, prosperity, and generosity for all.

By the power of the Four Mainstays, human society enlivens and enacts its potent scope and purpose, expanding human intelligence so that it is co-extensive, interactive and interoperable with the intelligence and power of the multiverse.
